

Problem Solving: Try, Check, and Revise

Try, Check, and Revise									
Try	<table style="margin-left: auto; margin-right: auto;"> <tr> <td style="text-align: center;">Sandwich</td> <td style="text-align: center;">Soup</td> <td style="text-align: center;">Salad</td> <td style="text-align: center;">Drinks</td> </tr> <tr> <td style="text-align: center;">\$3.99</td> <td style="text-align: center;">\$2.99</td> <td style="text-align: center;">\$3.50</td> <td style="text-align: center;">\$1.50</td> </tr> </table> <p>Jackie spent \$7.99 on lunch. She ordered three items from the menu. What did she order?</p> <p>Did she order a sandwich, a soup, and a drink? Try adding the three items.</p>	Sandwich	Soup	Salad	Drinks	\$3.99	\$2.99	\$3.50	\$1.50
Sandwich	Soup	Salad	Drinks						
\$3.99	\$2.99	\$3.50	\$1.50						
Check	<table style="margin-left: auto; margin-right: auto;"> <tr> <td style="text-align: right;">\$3.99</td> <td></td> </tr> <tr> <td style="text-align: right;">\$2.99</td> <td></td> </tr> <tr> <td style="text-align: right;"><u>+\$1.50</u></td> <td></td> </tr> <tr> <td style="text-align: right;">\$8.48</td> <td style="text-align: center;">That's too high. Try again.</td> </tr> </table>	\$3.99		\$2.99		<u>+\$1.50</u>		\$8.48	That's too high. Try again.
\$3.99									
\$2.99									
<u>+\$1.50</u>									
\$8.48	That's too high. Try again.								
Revise	<p>Did she order soup, salad, and a drink? Try adding these items.</p>								
Check	<table style="margin-left: auto; margin-right: auto;"> <tr> <td style="text-align: right;">\$2.99</td> <td></td> </tr> <tr> <td style="text-align: right;">\$3.50</td> <td></td> </tr> <tr> <td style="text-align: right;"><u>+\$1.50</u></td> <td></td> </tr> <tr> <td style="text-align: right;">\$7.99</td> <td style="text-align: center;">That's right. These three items total \$7.99.</td> </tr> </table>	\$2.99		\$3.50		<u>+\$1.50</u>		\$7.99	That's right. These three items total \$7.99.
\$2.99									
\$3.50									
<u>+\$1.50</u>									
\$7.99	That's right. These three items total \$7.99.								

Use the price list to solve the following problems.

Dave's Fruit Market			
grapes \$2.25/bag	bananas \$1.99/bag	strawberries \$3.40/box	watermelon \$5.00

- Wanda spent \$11.99 at Dave's Fruit Market. She bought 2 of one thing and 1 of another thing. What did she buy?

- Ted spent \$7.64 at Dave's Fruit Market. He bought three different items. What did he buy?

- Number Sense** Scott bought two items at Dave's Fruit Market. The cashier told him that he owed \$5.49. Why is the cashier incorrect? What did Scott purchase?
