

Perimeter

You can use addition to find the perimeter of a figure.

Add the lengths of the sides.
 $9 + 5 + 7 + 5 + 10 + 15 = 51 \text{ in.}$

Sometimes you can use a formula to find the perimeter.

$$P = (2 \times l) + (2 \times w)$$

l is the length and w is the width.

$$P = (2 \times l) + (2 \times w)$$

$$P = (2 \times 11) + (2 \times 3)$$

$$P = 22 + 6$$

$$P = 28 \text{ m}$$

Find the perimeter of each figure.
