

Interpreting Graphs

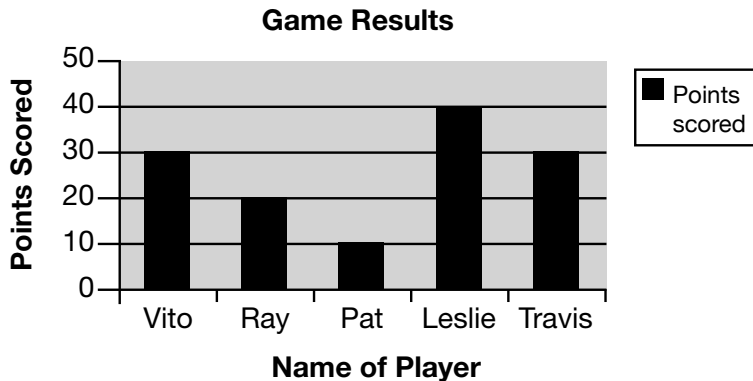

Bar graphs help us compare data.

Data File	
Lengths of U.S. States	
State	Length
Florida	500 mi
Georgia	300 mi
Kansas	400 mi
Utah	350 mi

The bar graph shows the information from the table in another way.

Use the bar graph below.

- How many points did Pat score? _____
- Who scored more points, Leslie or Travis? _____
- Which player scored 20 points? _____
- Which two players scored the same amount of points? _____
