Lesson 1-1

Lesson 1-1

**Period**

In a number, a group of three digits, separated by commas, starting from the right.

**Expanded form**

A number written as the sum of the values of its digits.

*Example:*  
 $2,000 + 400 + 70 + 6$

**Word form**

A number written in words.

*Example:*  
Four thousand,  
six hundred, thirty-two

**Standard form**

A way to write a number showing only its digits.

*Example:*  
2,613
