

# Rounding Whole Numbers

Round 8,742,883 to the nearest million.

You can use place value or a number line to help you round numbers. On the number line below, 8,742,883 is between 8,000,000 and 9,000,000. The halfway number is 8,500,000.

8,742,883 is closer to 9,000,000 than to 8,000,000.

Therefore, 8,742,883 rounds up to 9,000,000.

When the number you want to round is greater than or equal to the halfway number, round up.

Round to the nearest hundred thousand. Draw a number line on a separate sheet of paper to help you.
