## What Number Am I?

Identify each number based on the information in each paragraph.

1. I am a 3-digit whole number. If you double me, I remain a 3-digit number. If you add 2 to me after I am doubled, I become a 4-digit number. What number am I?

---

---

2. I am a 4-digit whole number. My digits decrease by 2 from the thousands place to the ones place. Each of my digits is an even number. What number am I?

---

---

3. I am a whole number. When you add 3 to me you get a 2-digit number. That 2-digit number is the same as 3 four times. What number am I?

---

---

4. I am a number less than 10. When I am divided by 2, half of that number is also 2. What number am I?

---

---
