

# Division Amazement

1. Trace a path to the middle of the maze. You can pass through only if the remainder is 2 when you divide.

2. Solve **only** the problem described.    a.  $2\overline{)91}$     b.  $4\overline{)58}$     c.  $8\overline{)79}$

- The quotient has 2 digits.
- The remainder is greater than 1.
